

Our industry events in **2012-2013**

>> priorities list

www.restec.ru

By sectors and calendar	2012	2013
Jewellery and Gifts		
Junwex St. Petersburg <i>International Jewellery Forum</i> Gold and platinum jewellery - Colored precious and semi-precious stones, pearls - Watches and clocks - Gifts, souvenirs, presents - Sales and demonstration equipment packaging - Diamond jewellery - Silverware and silver jewellery - Religious Jewellery - Antiques - Equipment for jewellery industry http://eng.rjexpert.ru/content/view/16/121	01.02. – 05.02.	06.02. – 10.02.
Junwex Tech (St. Petersburg) <i>International Exhibition of Jewellery Equipment, Technologies and Tools</i> Equipment and technologies for mass production of jewellery - Jewellery tools and operating supply, gem-cutting – Accessories, semi-finished goods, mountings - Services on adjustment, after-sales services and maintenance of equipment - Services on complete technical support at the stages from master-models to the storage of finished-products - Systems of three dimensional prototyping and development of master-models - Scales and gemology equipment - Demonstration and sales equipment; packaging - Security systems for goldsmith http://eng.rjexpert.ru/content/view/57	01.02. – 05.02.	06.02. – 10.02.
New Russian Style (Moscow) <i>International Exhibition of Jewellery and Watch Brands</i> Jewellery brands - Watch brands - Diamonds, precious stones and pearls - Antiques - Gifts, Presents - Packing and equipment http://eng.rjexpert.ru/content/view/27	30.05. – 03.06.	22.05. – 26.05.
NEW! Macef Russia (Moscow) – International Home Show <i>Co-organised with Fiera Milano (Italy)</i> Tables, kitchen and silverware – Home décor and textile – Gifts, ceremony, toy, stationery and celebrations – Handcrafts products www.macef.it/en	14.05. – 17.06.	13.05. – 16.06.
Junwex Moscow together with Jewellery Industry Conference + NEW! Junwex Watch <i>Jewellery Wholesale Trade Fair</i> Gold and platinum jewellery - Colored precious and semi-precious stones, pearls - Watches and clocks - Gifts, souvenirs, presents - Sales and demonstration equipment packaging - Diamond jewellery - Silverware and silver jewellery - Religious Jewellery - Antiques - Equipment for jewellery industry http://eng.rjexpert.ru/content/view/169	15.09. – 19.09.	11.09. – 15.09.
Junwex Yekaterinburg <i>Jewellery Exhibition and Fair</i> http://eng.rjexpert.ru/content/view/214/195/	22.11. – 25.11.	21.11. – 24.11.
Metalworking and Machinery		
St. Petersburg Technical Fair featuring Metallurgy and Casting, Metalworking, Mechanical engineering, High Technologies. Innovations. Investments (Hi-Tech), Non-metals, Fasteners, Services for industrial enterprises Metallurgy – Casting - Technologies and equipment for metalworking - Compressors. Pumps. Valves, Drives and their elements, Bearings, Engines for industrial production - Automotive components for assembling production, Spare parts and service stations - Production and technological processes management, Industrial automation, Storehouse equipment and machines, Freight forwarding, Power supply and communications, Resource and energy efficiency measures for enterprises, Industrial safety, Industrial ecology and waste disposal – High Technologies. Innovations. Investments - St. Petersburg Industrial and Innovation Congress St. Petersburg Industrial Forum www.ptfair.ru	13.03. – 15.03.	12.03. – 14.03.
St. Petersburg International Partneriat <i>Small and Medium Business Interregional and International Cooperation</i> www.ptfair.ru/partneriat.en.html	13.03. – 15.03.	12.03. – 14.03.
Blech Russia 2013 (St. Petersburg) <i>Exhibition for Sheet Metal Working</i> Sheet metal, tube, sections (ferrous and non-ferrous) - Finished products, components, assemblies – Handling - Separation / Cutting – Forming - Flexible sheet metal working - Tube / Section processing - Machine elements - Joining / Welding / Fastening - Surface treatment of sheet metal - Automation and Robotics - Tools / Dies - Controlling / Regulating / Measuring / Testing - Quality assurance - CAD/CAM systems / Data processing - Factory and warehouse equipment - Environment protection / Recycling - Safety at work - Research and development www.blechrussia.com	Biennial	12.03. – 14.03.
Innovations and scientific cooperation		
St. Petersburg Innovation Forum www.forum.spbinno.ru	Sept-Oct	Sept-Oct
Pulp and Paper		
NEW! Pulp, Paper & Tissue Russia 2012 / IPX Russia 2013 (Moscow) <i>International exhibitions and conferences on equipment and technology for the pulp and paper industry</i> http://www.ipptf.com/	02.04. – 05.04.	09.04. – 11.04.
Forestry		
Interles (St. Petersburg) <i>International Specialised Exhibition of technologies and equipment for forestry, logging and timber processing</i> Technologies and equipment for reforestation and forest management - Machinery and equipment for forestry - Logging machinery and equipment - Mobile sawmill equipment - Units, accessories and spare parts for logging machinery - Equipment and means for forest fire extinguishing - Equipment and means of ecological protection - Technologies and equipment for non-timber products processing - Equipment operating with wood waste - Landscape engineering, design and architecture - Development, landscape gardening, planting materials. Nurseries - Outfit and gear for forestry workers - Investment and leasing structures, banks www.restec.ru/interles	Biennial	20.06. – 22.06.
St. Petersburg International Forestry Forum – SPIFF featuring exhibitions Tekhnodrev + Transles + Wooden Construction + Regions of Russia + conference Pulp, Paper&Tissue Russia www.spiff.ru	09.10. – 11.10.	08.10. – 10.10.

<p>Transles (St. Petersburg) <i>International Specialised Exhibition for transport and technologies for surface, water, and air transportation of timber freight. Transport and warehouse logistics of timber freight</i> Technologies and transport for land, water and air transportation of timber, rope-ways - Technologies, equipment and transport for handling and storage operations at forestry enterprises - Technologies and equipment for construction and exploitation of wood-roads, timber yards and timber ports - Technologies and equipment for timber ports - Leasing and investment services for forestry complex - Transport, industrial and trade logistics of timber cargo - Software for cargo transport logistics - Technological schemes for forestland transport development - Shipping containers, technologies and equipment for timber packaging, marking and recording at forestry enterprises - Scientific researches and planning developments in the sphere of transport and storage logistics of timber cargoes www.restec.ru/transles</p>	09.10. – 11.10.	08.10. – 10.10.
<p>Wooden Construction (St. Petersburg) <i>International Specialised Exhibition for technologies, equipment, constructions and materials, wood preservatives</i> Modern and traditional technologies of timber housing - Wooden houses. Villas. Mansion houses. Summer cottages - Modern building timbers - Constructions and buildings made of timber - Finishing materials and means of protection - Roofing, heat- and noise insulating materials - Fastening components of the wooden constructions - Engineering systems and equipment - Security equipment. Fire-fighting systems - Architectural designing, finished projects, building design, interior design - Wood in interior - Hardscape elements. Eco-development – secure technologies and materials - IT-technologies for timber housing - Smart House: automated control systems, security systems, systems of video surveillance and fire safety systems - Water and Heat in your house (stoves and fire places) - Elite house: modern technologies, facades, materials, lighting and security. Eco-modern building - Eco-development – secure technologies and materials www.restec.ru/woodbuild</p>	09.10. – 11.10.	01.10. – 03.10.
Woodworking		
<p>NEW! Moscow International Forestry Forum <i>featuring exhibitions and conferences Pulp, Paper&Tissue Russia + Bioenergy Russia + Interlesbirzha</i> www.restec.ru/miff</p>	02.04. – 05.04.	09.04. – 11.04.
<p>NEW! Bioenergy Russia <i>International exhibition and conference on developments and technology for biofuel consumption and production</i> www.restec.ru/bioenergy</p>	02.04. – 05.04.	09.04. – 11.04.
<p>NEW! Interlesbirzha <i>International trade fair of wood products</i> http://www.restec.ru/ilb</p>	02.04. – 05.04.	09.04. – 11.04.
<p>Tekhnodrev Ural (Yekaterinburg) <i>International Specialised Exhibition for technologies, equipment and tools for woodworking and furniture industries</i> Forest design - Forest conservation measures and ecological programs, forest reproduction - Sawmill equipment - Logging technologies, machinery and equipment - Technologies and equipment for woodworking industry - Technologies and equipment for furniture production - Components for equipment, tools and rigging for furniture and woodworking manufactures - Equipment and tools for wooden construction - Technologies and equipment for production of boards, plywood and veneer - Technologies and equipment for woodworking, waste recycling and production of biofuel - Packaging, load-transfer and storage equipment - Lumber, wooden boards, veneer, plywood - Wooden houses, joinery, planed timber, doors, windows - Forest products - Software for woodworking and furniture manufactures - Advanced industry developments, engineering - Investment and leasing structures, banks, consulting www.restec.ru/tekhnodrev</p>	14.03. – 16.03.	12.03. – 14.03.
<p>Tekhnodrev Far East (Khabarovsk) <i>International Specialised Exhibition for technologies, equipment and tools for forestry, logging, woodworking and furniture industries</i> Co-organised with Khabarovsk International Fair Forest design - Forest conservation measures and ecological programs, forest reproduction - Sawmill equipment - Logging technologies, machinery and equipment - Technologies and equipment for woodworking industry - Technologies and equipment for furniture production - Components for equipment, tools and rigging for furniture and woodworking manufactures - Equipment and tools for wooden construction - Technologies and equipment for production of boards, plywood and veneer - Technologies and equipment for woodworking, waste recycling and production of biofuel - Packaging, load-transfer and storage equipment - Lumber, wooden boards, veneer, plywood - Wooden houses, joinery, planed timber, doors, windows - Forest products - Software for woodworking and furniture manufactures - Advanced industry developments, engineering - Investment and leasing structures, banks, consulting www.restec.ru/tekhnodrev</p>	19.04. – 22.04.	18.04. – 21.04.
<p>Tekhnodrev Siberia (Krasnoyarsk) <i>International Specialised Exhibition for technologies, equipment and tools for forestry, logging, woodworking and furniture industries</i> Co-organised with Krasnoyarskaya Yarmarka Exhibition Center Forest design - Forest conservation measures and ecological programs, forest reproduction - Sawmill equipment - Logging technologies, machinery and equipment - Technologies and equipment for woodworking industry - Technologies and equipment for furniture production - Components for equipment, tools and rigging for furniture and woodworking manufactures - Equipment and tools for wooden construction - Technologies and equipment for production of boards, plywood and veneer - Technologies and equipment for woodworking, waste recycling and production of biofuel - Packaging, load-transfer and storage equipment - Lumber, wooden boards, veneer, plywood - Wooden houses, joinery, planed timber, doors, windows - Forest products - Software for woodworking and furniture manufactures - Advanced industry developments, engineering - Investment and leasing structures, banks, consulting www.restec.ru/tekhnodrev</p>	11.09. – 14.09.	10.09. – 13.09.
<p>Tekhnodrev (St. Petersburg) <i>International Specialised Exhibition for technologies, equipment and tools for forestry, logging, woodworking and furniture industries</i> Technologies and equipment for woodworking industry - Technologies and equipment for furniture production - Components for equipment, tools and rigging for furniture and woodworking manufactures - Equipment and tools for wooden construction - Packaging, load-transfer and storage equipment - Software for woodworking and furniture manufactures - Sawmill equipment and tools - Drying equipment - Technologies and equipment for production of boards, plywood and veneer - Technologies and equipment for woodworking, waste recycling and production of biofuel - Marking equipment and tools - Advanced industry developments, engineering - Investment and leasing structures, banks, consulting www.restec.ru/lpkexpo</p>	09.10. – 11.10.	08.10. – 10.10.
Furniture		
<p>MIFIC Congress alongside with MEBEL and ZOW (Moscow) <i>Specialised exhibition for fabrics, leather and materials for furniture production</i> Upholstery materials – Felts - Foam rubber and expanded plastics - Shaped upholstery - Upholstery blanks - Upholstery products - Threads for sewing - Fabrics and leathers - Artificial and natural fabrics - Bonded fabrics - Special fabrics - Upholstery fabrics - Printed fabrics – Leather - Artificial leather - Micro fibre materials - Seating shells - Mattress ticking www.mific.ru</p>	19.11. – 21.11.	18.11. – 20.11.

<p>ZOW (Moscow) <i>Annual Fair for Components and Accessories for Furniture and Interior Design</i> Chemical products (adhesives, glues, lacquers, stains, rasins) - Elements and Systems (drawer inserts, drawers and drawer runners, furniture feet, furniture rollers, furniture roller-blinds, glass-elements, mirrors, interior fittings for cabinets, lighting-systems, pneumatic springs, recess-systems, sinks/sink insert/bowls) - Fabrics and Leathers (artificial leather, bounded fabrics, leather, mattress ticking, micro fibre materials, printed fabrics, seating shells, upholstery fabrics) - Fittings (faucets, functional fittings, locks and locking systems, ornamental firings) - Interior decoration (floors, panels, profile systems) – Machines and equipments - Materials, raw and processed (auxiliary materials, bars, boards and panels, compound materials, core materials, covering materials, edges, edge strips, lumber and timber, profiles, trimmings) - Semi-finished products (furniture door fronts, inlets and pillows, postforming-elements, prefabricated products, ready-to-assemble elements, show-wood shells, spring bases and cores, spiral nets, tabletops, table frames, upholstery frame, worktops) - Surfaces (decorpapers solid colours, decorpapers printed, foils, laminates, veneers) - Services (engineering and consulting, financing and insurance, public organisations, technical press, software, other services) – Tools - Others www.zow.ru</p>	<p>19.11. – 23.11.</p>	<p>18.11. – 22.11.</p>
Energy and Power		
<p>Energetika & Elektrotehnika (St. Petersburg) <i>International Specialised Exhibition for power industry equipment, technologies and electrical machines, devices and apparatus</i> Power Industry (Electric power, Water heating power, Hydropower, Nuclear power, Small, alternative and renewable power systems) - Energy machinery (turbines and turbosupport equipment, hot water boiler and support equipment, diesels and diesel generators, heat-exchangers, compressors) - Electric equipment (electric engines, electric generators, electric drives, transformers, power electronics, wiring accessories, cables, wires, electroinsulation products, lighting engineering) - Gas supplying systems (Gas pipe-lines, Polymeric materials for gas supply, Conjunction, stop armature, regulators, gas pressure regulators, Gas heating systems) - Measuring systems and devices, systems of control, automatic regulation - Software - Energy efficient and energy saving technologies and equipment - Research and development - Environmental safety www.restec.ru/power</p>	<p>22.05. – 25.05.</p>	<p>May</p>
<p>NEW! Energetika & Elektrotehnika Ural (Yekaterinburg) <i>International Specialised Exhibition and Conference</i> Energy equipment and machinery (electric power industry, thermal power industry, hydropower industry, renewable energy industry, turbines and turbine support equipment, hot water boilers and support equipment, diesels and diesel generators, heat-exchangers, compressors, electric engines, electric generators, electric drivers, automation means for the energy industries, energy saving equipment); Electric equipment (power line equipment, converters, transformers, switchgear, electricity supply system equipment, transformer substations, power electronics, low voltage equipment, high voltage equipment, wiring products, means of protection at electric power stations, cables, wires, end fitting, power system protection, electroinsulation products, lighting equipment); Energy saving and efficiency (energy saving and efficiency at producing heat and electric power, energy saving technologies for engineering systems of industrial enterprises, buildings and facilities, energy efficient equipment, units, articles and materials, automated process management systems in the industry, energy sectors and in fuel and energy resources consumption, environmental safety, energy saving equipment and technology) www.restec.ru/power-ural</p>	<p>27.04. – 29.04.</p>	<p>April</p>
Oil and Gas		
<p>St. Petersburg International Energy Forum featuring exhibitions Neftegasexpo, Oil Refining and Petrochemical Industries, MIRR - Raw Materials and Energy Resources, Transtekexpo, Nuclear Industry, Power Machine Engineering, TransErgoExpo, Renewable Energy www.forumtek.ru</p>	<p>18.09. – 20.09.</p>	<p>Biennial</p>
<p>Neftegasexpo (St. Petersburg) <i>International Specialised Exhibition for Oil and Gas Exploration and Development, know-how technologies and equipment</i> Gas, gas condensate and oil fields exploration and development - Active oil and gas production objects operations, exploitation, repairs, modernisation, reconstruction and re-equipment - Gas, gas condensate and oil fields exploitation economic efficiency increase - Well servicing and well- workover operations - Software modeling and optimization of oil and gas production and transportation; information systems; engineering - Ancillary facilities for of oil and gas production - Projecting, production, sales and maintenance of the auxiliary equipment - Ecological problems and solutions - Drilling equipment www.forumtek.ru</p>	<p>18.09. – 20.09.</p>	<p>Biennial</p>
<p>Oil Refining and Petrochemical Industries (St. Petersburg) <i>International Specialised Exhibition and Conference of Technologies and Equipment for Oil refining and Petrochemical Enterprises.</i> <i>Raw materials processing and products</i> Integrated engineering service, research and development at petroleum refining and petrochemical industry - Oil and gas refining equipment design and construction, turnkey project; chemical and petrochemical engineering - Oil and gas condensate primary distillation; catalytic reforming; hydrogen refining of motor, diesel and jet engine fuels, isomerisation and dehydrogenation - Catalytic cracking and hydrocracking units construction and operation - New approaches to raw materials processing; advanced reagents and catalysts - Gas fractionation, production of aromatic hydrocarbon, oxygen-containing compounds and other petrochemical products - Engineering and consulting services; automation facilities and devices; information support - Petrochemical products storage and transportation - Organic synthesis - Reagents and catalysts - Measurement and testing equipment; automation equipment www.forumtek.ru</p>	<p>18.09. – 20.09.</p>	<p>Biennial</p>
<p>MIRR - Raw Materials and Energy Resources (St. Petersburg) <i>17th International Specialised Exhibition</i> Investment projects for deposit development and reorganisation of mining companies; Innovations in reproduction of mineral resources; Computer technologies and analytical laboratory support for mapping, prediction and researching; Mining operation, processing and enrichment of mineral resources (mine and open-cut transport, well drilling technologies, enriching equipment, energy support and automation); Geophysical support for researching and reproduction of mineral resources; Geophysical instrument and equipment; Environmental and ecological safety in mining operation, processing and transportation of mineral resources www.forumtek.ru</p>	<p>18.09. – 20.09.</p>	<p>Biennial</p>
<p>Nuclear Industry (St. Petersburg) <i>Technologies and equipment for Nuclear Power Engineering</i> Nuclear power industry – materials and equipment, process modeling, control of nuclear power plants during their operation, new nuclear power plants; Nuclear fuel – raw materials, manufacture, processing technology, storage and transportation of used nuclear fuel; Instruments and equipment for nuclear fuel cycle; Small-size ground, underground and submarine nuclear power plants; Sensors, control instruments and equipment, equipment diagnostics measuring and computer equipment; Analyzing and metrology equipment; Isotope products; Materials resisting aggressive environment; materials for radiation protection; Construction and special ceramics; Remote control and robotic servicing systems; Automated control systems for radiation situation; Communications for transportation of radioactive wastes and used nuclear fuel; Transport containers for radioactive wastes and used nuclear fuel radiation control instruments: spectrometric, dosimetric, radiometric; Equipment for controlling radiation situation: pedestrian and portal monitors for radiation monitoring, radiometers-signalers; Equipment for physical protection of facilities using radiation technologies; Means of radiation protection for people, enterprises, environment; Means and technologies for recovery of sites with radioactive and chemical contamination and for environment recovery; New materials, equipment and technologies based on converted nuclear power industry enterprises: silicon, fuel and energy complex, microelectronics, electrical equipment, medical equipment; Nuclear industry uniform; Complex security systems for nuclear power plants; Software and hardware supporting automatic process control systems for nuclear power plants; Information and communication technologies; Radiation protecting clothing and means for people, enterprises and environment; NEW Nuclear Machinery www.forumtek.ru, www.restec.ru/atom</p>	<p>18.09. – 20.09.</p>	<p>Biennial</p>

<p>Power Machine Engineering (St. Petersburg) <i>The 4th International Specialised Exhibition</i> Modern equipment and advanced technologies for electric power industry: transformers, protectors and clippers, high-frequency reactance, energy-saving rectifying installations; Power thyristor converters for transmission and DC links, diagnostic facilities for installation of electric power substations and power lines o inspection technologies and indicators; Protective equipment o automatic equipment, etc.; Modern equipment and advanced technologies for hydropower industry: hydraulic turbines o hydro generators o pumped storage power plants o ship power plants o inspection and automatic control technologies and indicators, etc.; Modern equipment and advanced technologies for thermal power industry: for production and transmission of thermal power o energy-efficient technologies for distribution of thermal power o small-scale power generation plants, mini-TPPs o automatic systems for commercial accounting of power consumption and automation of power plants, etc.; Modern power equipment and advanced technologies for enterprises - heavy consumers of energy; Investment projects for power industry enterprises; NEW Alternative power industry is the power industry of the future, featuring presentations of equipment, devices, parts and technologies for wind, solar, geothermal and hydrogen power industries www.forumtek.ru</p>	18.09. – 20.09.	Biennial
<p>TransEnergoExpo (St. Petersburg) <i>International Specialised Exhibition for hydrocarbon materials transportation</i> Pipeline transport: design, construction, maintenance and reconstruction - Pipelaying and safety equipment. Valving. Non-destructive examination - Railway transport: lift-on/lift-off equipment, truck-loading facilities - Counter systems and filling control - Sea transport, ports and transshipment. Oil tankers, support vessels. Sea transportation safety - Highway transportation. Tank-trucks - Oil and gas storage systems. Underground storages - Logistics www.forumtek.ru</p>	18.09. – 20.09.	Biennial
<p>Renewable Energy (St. Petersburg) <i>International Specialised Exhibition for thermonuclear energy, bioenergy, renewable sources of energy</i> www.forumtek.ru</p>	18.09. – 20.09.	Biennial
<p>RAO / CIS Offshore 2013 (St. Petersburg) <i>International Conference and Exhibition for Oil and Gas Resources Development of Russian Arctic and CIS Continental Shelf</i> Geological estimation of oil and gas resources in Russian Arctic and Russian and CIS continental shelf - Hydrometeorological and geotechnical conditions of Russian Arctic and continental shelf - Technique and technologies of oil and gas resources development in arctic conditions and on continental shelf - Marine structures for development and exploitation of oil and gas fields - Floating and underwater equipment, subsea pipelines - Rescue systems and equipment, communication and navigation systems - Industrial and environmental safety - Legal, regulatory framework and economy of continental shelf development www.rao-offshore.ru</p>	Biennial	10.09. – 13.09.
IT		
<p>INFOBEZ-Expo alongside with INFODOC, INFOSERV, BRC – Business Continuity Russia (Moscow) <i>International Specialised Exhibitions and Conferences for Information Security, IT-solutions for information management, Data Storage and Integration, Business Continuity and Risk Management</i> Anti Spam - Anti Virus - Application Security – Biometrics - Business Continuity / Disaster Recovery - Content Monitoring/Filtering - Email/IM Security (Instant messaging security) - Encryption/PKI/Digital Certificates – Firewalls - Identity&Access Management - Internet Security/Network Security - Intrusion Prevention/Detection - IT Forensics - Managed Security Services - Patch Management - Penetration Testing / Risk & Vulnerability Assessment - Physical Security - Remote Access- Security Storage - Security Policy - Security Tokens - Security Training / Awareness / Education - Security Web Services - Smartcards - Unified Threat Management - VOIP –Security - VPN - Wireless/Mobile Security www.infobez-expo.ru</p>	03.10. – 05.10.	01.10. – 03.10.
Travel and Tourism		
<p>Leisure Without Borders. Summer (St. Petersburg) <i>International Travel Fair</i> Tour operators and tourist agencies - Tourist boards and associations - Health spas and resort hotels – Museums - Cultural centers www.restec.ru/travelexpo</p>	05.04. – 08.04.	05.04. – 08.04.
<p>Inwetex – CIS Travel Market together with MICE Industry + Spas + New Windows on Russia Forum + Medical Tourism (St. Petersburg) <i>International Travel Exhibition</i> Co-organised with JSC Saint-Petersburg Express Airlines, tour operators, tourist agencies, tourist boards and associations, health spas and resort hotels, cruise and ferry companies, accommodation providers, ground handlers, special interest holidays, technology and telecommunications, reservation systems, tourists attractions, venues, mass media. Airlines - Car Rental Companies - Conference / Incentive / Meetings - Cruise / Ferry - Companies – Groundhandlers - Health Spa's & Resorts - Hotels / Accommodation - Providers - Internet Support Services - Reservation Systems - Special Interest Holidays - Technology and Telecommunications - Tourist Attractions - Tourist Boards / Associations - Tour Operators - Transport: Air, Road, Rail, Shipping Agencies - Travel Related Services - Venues www.restec.ru/travelexpo</p>	04.10. – 06.10.	03.10. – 05.10.
Pharma and biotech		
<p>St. Petersburg International IPhEB Pharmacy. Medical Equipment. Biotechnology www.restec.ru/ipheb</p>	25.04. – 27.04.	Apr
Transport and Logistics		
<p>Transport Industry Congress (Moscow) <i>Co-organised with Mack Brooks Exhibitions (UK)</i></p>	-	Apr
<p>NEW! Expotraffic 2013 (Moscow) <i>International Specialised Exhibition</i> Co-organised with Mack Brooks Exhibitions (UK)</p>	-	Apr
<p>Intertunnel (Moscow) <i>International Tunneling Exhibition on design, construction, maintenance</i> Co-organised with Mack Brooks Exhibitions (UK) Tunnel construction equipment, materials and plant - Microtunnelling and trenchless technologies - Fire protection and other safety systems - Communication and security systems - Pollution control and ventilation equipment - Electrical and lighting systems - Consultancy and design services www.intertunnelrussia.com</p>	-	Apr
<p>Transcon (Moscow) <i>International Specialised Exhibition for transport construction: roads and bridges, ports and terminals, airports</i> Design and construction of transport facilities - Engineering support, construction and design of utility systems -</p>	-	Apr

Building materials and constructions, transport facilities maintenance - Systems and technical resources for safety works, diagnostics and work quality control - Traffic control systems, road signs and marking - Software and connection - Investments and insurance of transport facilities, machinery, equipment - Security: diagnostics of operating condition, ecology, emergency prevention - Training of personnel and educational systems www.restec.ru/transcon		
Roads. Bridges. Tunnels (St. Petersburg) alongside with NEW! Urban Infrastructure + Transport Security & Safety <i>International Specialised Exhibition and Transport Congress</i> Engineering and construction of roads, bridges and tunnels - Road machinery and equipment - Equipment and technologies of trenchless utility engineering - Materials and structures for construction, maintenance and repair of roads, bridges and over bridges - Traffic control systems, road signs and marking - Road side development - Systems and equipment for road works safety - Software and communications - Diagnostics and quality control of road works - Investments to and insurance of road facilities, machinery and equipment - Staff training and educational systems www.restec.ru/transport		19.09. – 21.09. 19.09. – 21.09.
World Of Bridges (St. Petersburg) <i>9th international forum</i> Co-organised with St. Petersburg Administration and DORMOST Association www.restec.ru/bridges		19.09. – 20.09. 18.09. – 20.09.
Exporail (Moscow) <i>International Railway Technologies Exhibition</i> Co-organised with Mack Brooks Exhibitions (UK) Railway supply and manufacture industry - Rolling stock manufacturers and suppliers of vehicle subsystems and components - Track and infrastructure companies - Signalling, train control and communications specialists - Electrification contractors and equipment manufacturers - Vehicle maintenance equipment suppliers - Fare collection systems companies - Information Technology specialists - Consultancy companies www.exporailrussia.com		07.11. – 09.11. Biennial
NEW! Interport (Moscow) <i>International Specialised Exhibition</i> www.exporailrussia.com		07.11. – 09.11. Biennial
Food and drinks		
Prodtech (St. Petersburg) <i>International Exhibition for Food Processing and Packaging Technology</i> Co-organised with Primexpo Confectionary and bread-making equipment - Macaroni and ravioli production equipment - Milk processing equipment - Ice-cream production equipment - Meat processing equipment - Fish processing equipment - Oils & fats equipment - Canning equipment - Snacks production equipment - Pre-processing equipment for agriculture - Vegetable processing equipment - Refrigerating equipment - Components and componentry - Transport & logistic services - Industrial sanitary - Production control systems - Bars and restaurants equipment - Trade equipment - Point-Of-Sales Interior Design - Ready packaging - Packaging materials - Packaging machines & equipment - Filling & closing machines - Bottling machines - Packaging production equipment - Labels & labelling machinery - Coding & marking machines - Package design - Auxiliary packaging - Industrial packaging - Automation & software for business - Warehouse services, handling machinery - Storage and transportation capacities - Compressor equipment - Strapping machines - Eco-friendly packaging - Recycling - Waste disposal www.restec.ru/prodtech	  	03.04. – 05.04. 16.04. – 18.04.
Interfood (St. Petersburg) <i>International Specialised Exhibition of foodstuffs, drinks and ingredients</i> Co-organised with Primexpo Baby food and diet foods - Baked products - Beverages - Butter, oil and fats - Canned products - Confectionery and chocolate - Milk and dairy products - Delicacies - Fast food - Fish and seafood - Frozen foods - Fruit and vegetables - Groceries - Ice-cream - Meat products and sausages - Sauces and spices - Snacks - Tea and coffee - Alcoholic, non-alcoholic and low-alcoholic drinks - Organic food www.restec.ru/interfood		03.04. – 05.04. 16.04. – 18.04.
Crafts and Culture		
Holy Russia (St. Petersburg) <i>All-Russia exhibition of church interior decoration, icons, jewellery, restoration, orthodox literature, pilgrimage, clothes, artistic souvenirs</i> www.restec.ru/holyrussia	  	04.10. – 08.10. Oct
Holy Russia – Nation Unity Day (Moscow) <i>Network of church and society exhibition and forum</i> Co-organised with Moscow Patriarchy Russian church and its community, social projects and charity, modern culture and orthodoxy, education books, religion and pilgrimage centers in Russia, arts and folk crafts www.pravoslav-expo.ru	  	04.11. – 08.11. 04.11. – 08.11.

As of 01 / 2012, to be confirmed

For any information on participation or visiting, and updates please feel free to contact
International Department – tel./fax: +7 812 303 88 66, email: interport@restec.ru

The most updated list and services overview are available on the web –
